

QuinStreet Reports Fourth Quarter Fiscal Year 2017 Financial Results

August 8, 2017

FOSTER CITY, Calif., Aug. 08, 2017 (GLOBE NEWSWIRE) -- QuinStreet, Inc. (Nasdaq:QNST), a leader in performance marketing products and technologies, today announced financial results for the fourth quarter ended June 30, 2017.

For the fourth quarter, the Company reported total revenue of \$81.5 million and GAAP net loss of \$1.4 million, or \$(0.03) per share. Adjusted net income was \$2.8 million, or \$0.06 per share, and adjusted EBITDA was \$6.1 million, or 7% of revenue.

The Company generated \$10.3 million in operating cash flow in the fourth quarter.

"The fiscal fourth quarter came in as expected and guided. We delivered year-over-year and sequential revenue growth, increased adjusted EBITDA and generated strong cash flow," commented Doug Valenti, QuinStreet CEO. "Improved results are being driven by positive momentum from the products and media strategies developed over the past couple of years and by our Financial Services and Home Services client verticals, which now account for over 70% of Company revenue. That portion of our business continues to deliver double-digit revenue growth and expanding profitability."

"We expect these trends and themes to continue in the new fiscal year and that improvements in overall company performance will accelerate as a result. For fiscal year 2018, we expect full year revenue growth of at least 10% and adjusted EBITDA margin of about 8%," continued Valenti.

"The Board of Directors has approved a reauthorization of the Company's stock repurchase program for the upcoming year, again targeted to offset dilution from equity compensation. Our balance sheet remains strong, with \$50 million of cash, and no debt," concluded Valenti.

Reconciliations of adjusted net income to GAAP net loss and adjusted EBITDA to GAAP net loss are included in the accompanying tables.

Non-GAAP Financial Measures

This release and the accompanying tables include a discussion of adjusted EBITDA, adjusted net income and adjusted diluted net income per share, all of which are non-GAAP financial measures that are provided as a complement to results provided in accordance with accounting principles generally accepted in the United States of America ("GAAP"). The term "adjusted EBITDA" refers to a financial measure that we define as net loss less (provision for) benefit from taxes, depreciation expense, amortization expense, stock-based compensation expense, interest and other expense, net, restructuring expense and legal settlement expense. The term "adjusted net income" refers to a financial measure that we define as net loss adjusted for amortization expense, stock-based compensation expense, restructuring expense, legal settlement expense and impairment of investment, net of estimated taxes. The term "adjusted diluted net income per share" refers to a financial measure that we define as adjusted net income divided by weighted average diluted shares outstanding. These non-GAAP measures should be considered in addition to results prepared in accordance with GAAP, but should not be considered a substitute for, or superior to, GAAP results. In addition, our definition of adjusted EBITDA, adjusted net income and adjusted diluted net income per share may not be comparable to the definitions as reported by other companies.

We believe adjusted EBITDA, adjusted net income and adjusted diluted net income per share are relevant and useful information because they provide us and investors with additional measurements to analyze the Company's operating performance.

Adjusted EBITDA is useful to us and investors because (i) we seek to manage our business to a level of adjusted EBITDA as a percentage of net revenue, (ii) it is used internally by us for planning purposes, including preparation of internal budgets; to allocate resources; to evaluate the effectiveness of operational strategies and capital expenditures as well as the capacity to service debt, (iii) it is a key basis upon which we assess our operating performance, (iv) it is one of the primary metrics investors use in evaluating Internet marketing companies, (v) it is a factor in determining compensation, and (vi) it is an element of certain financial covenants under our historical borrowing arrangements. In addition, we believe adjusted EBITDA and similar measures are widely used by investors, securities analysts, ratings agencies and other interested parties in our industry as a measure of financial performance, debt-service capabilities and as a metric for analyzing company valuations.

We use adjusted EBITDA as a key performance measure because we believe it facilitates operating performance comparisons from period to period by excluding potential differences caused by variations in capital structures (affecting interest expense), tax positions (such as the impact on periods or companies of changes in effective tax rates or fluctuations in permanent differences or discrete quarterly items), non-recurring charges (such as restructuring and legal settlement expense) and the non-cash impact of depreciation expense, amortization expense and stock-based compensation expense.

Adjusted net income and adjusted diluted net income per share are useful to us and investors because they present an additional measurement of our financial performance, taking into account depreciation, which we believe is an ongoing cost of doing business, but excluding the impact of certain non-cash expenses (stock-based compensation and amortization of intangible assets) and other non-recurring charges. We believe that analysts and investors use adjusted net income and adjusted diluted net income per share as supplemental measures to evaluate the overall operating performance of companies in our industry.

We intend to provide these non-GAAP financial measures as part of our future earnings discussions and, therefore, the inclusion of these non-GAAP financial measures will provide consistency in our financial reporting. A reconciliation of these non-GAAP measures to GAAP is provided in the accompanying tables.

Legal Notice Regarding Forward Looking Statements

This press release and its attachments contain forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934 that involve risks and uncertainties. Words such as "estimate", "will", "believe", "intend", "potential" and similar expressions are intended to identify forward-looking statements.
