INVESTOR PRESENTATION

Q3 FY22 UPDATE | CONFIDENTIAL

These slides and the accompanying oral presentation contain forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934 that involve risks and uncertainties. All statements other than statements of historical facts in these slides and the accompanying oral presentation, including statements regarding our anticipated financial results, growth, strategic and operational plans and results of analyses on impairment charges, are forward-looking statements. Words such as “believe,” “may,” “might,” “objective,” “estimate,” “continue,” “anticipate,” “project,” “intend,” “will,” “outlook,” “should,” “could,” “plan,” “future,” “expect,” “predict,” “potential,” or the negative of these terms or other similar expressions, are intended to identify forward-looking statements. These forward-looking statements include the statements in quotations from management in this press release, as well as any statements regarding the Company's anticipated financial results, growth and strategic and operational plans. The Company's actual results may differ materially from those anticipated in these forward-looking statements. Factors that may contribute to such differences include, but are not limited to: the Company's ability to maintain and increase client marketing spend; the Company's ability, whether within or outside the Company's control, to maintain and increase the number of visitors to its websites and to convert those visitors and those to its third-party publishers' websites into client prospects in a cost-effective manner; the Company's exposure to data privacy and security risks; the impact from risks and uncertainties relating to the COVID-19 pandemic and its aftermath; the impact of changes in industry standards and government regulation including, but not limited to investigation or enforcement activities of the Federal Trade Commission and other regulatory agencies; the impact of changes in our business, our industry, and the current economic and regulatory climate on the Company's quarterly and annual results of operations; the Company's ability to compete effectively against others in the online marketing and media industry both for client budget and access to third-party media; the Company's ability to protect our intellectual property rights; and the impact from risks relating to counterparties on the Company's business. More information about potential factors that could affect the Company's business and financial results are contained in the Company's annual reports on Form 10-K and quarterly reports on Form 10-Q as filed with the Securities and Exchange Commission, and other factors that may not be known to us.

Because forward-looking statements are inherently subject to risk and uncertainties, some of which cannot be predicted or quantified and some of which are beyond our control, you should not rely on these forward-looking statements as predictions of future events. The events and circumstances reflected in our forward-looking statements may not be achieved or occur and actual results could differ materially from those projected in the forward-looking statements. Except as required by law, the Company does not plan to publicly update or revise any forward-looking statements contained herein, whether as a result of any new information, future events, changed circumstances or otherwise.
